Solving Word Problems
Answers .............................................. 45
Welcome to *FunnyBone Books: Fractions Practice Puzzles*, a surefire way to get students excited about math. This book combines basic fraction problems with loads of hilarious riddles guaranteed to get students revved up for learning.

As you may know, one of the keys to helping students learn successfully is to make learning fun. That’s why each page of *Fractions Practice Puzzles* starts with an amusing riddle. Your students will be motivated to solve the fractions problems because the answers will help them find the rib-tickling solution to each riddle.

Along the way, your students will be drilled on several fraction skills, including adding, subtracting, multiplying, and dividing fractions, computing with mixed numbers, simplifying fractions, and solving fraction word problems. We hope your students enjoy *Fractions Practice Puzzles* and benefit from the skills presented in this book.

By making learning about fractions enjoyable, we hope to reveal a wonderful secret to your students—math is lots of fun!
Riddle 1

What should you do when two snails start fighting?

What To Do

Fill in the blanks with the correct answer. Match each answer to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1. This pizza is divided into ____ equal slices.
2. This pizza is divided into ____ equal slices.
3. This pizza is divided into ____ equal slices.
4. This pizza is divided into ____ equal slices.
5. This pizza is divided into ____ equal slices.
6. This pizza is divided into ____ equal slices.
7. This pizza is divided into ____ equal slices.
8. This pizza is divided into ____ equal slices.
9. This pizza is divided into ____ equal slices.
10. This pizza is divided into ____ equal slices.

Riddle Answer

Let the ___ ___ ___ ___ ___ ___ ___ ___ ___ ___
What did the egg do when it heard a joke?

Riddle Answer
I __ ___ ___ ___ ___ ___ ___ __ up!
3 7 5 6 2 8 4 1
What do you get from an angry shark?

What To Do

Write the fractions that correspond to the words below. Match each fraction to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1 One-half = __________ 6 One-seventh = __________
2 One-third = __________ 7 Two-thirds = __________
3 One-quarter = __________ 8 Three-quarters = __________
4 One-sixth = __________ 9 Three-fifths = __________
5 One-eighth = __________ 10 Two-sevenths = __________

s possible
Which dance did the chicken refuse to do?

**What To Do**

Write the fractions that correspond to the words below. Match each fraction to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1. Five-sixths = _________
2. Seven-elevenths = _________
3. Nine-sixteenths = _________
4. Five-eighths = _________
5. Seven-ninths = _________
6. Five-fourteenths = _________
7. Five-twelfths = _________
8. Twelve-thirteenths = _________
9. Eight-nineteenths = _________
10. Six-fifteenths = _________

Riddle 5

Why did the monster need a third sock?

What To Do

Answer the questions below. Match each answer to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1. In the fraction $\frac{5}{8}$, what is the numerator? ____
2. In the fraction $\frac{1}{7}$, what is the denominator? ____
3. In the fraction $\frac{3}{4}$, what is the numerator? ____
4. In the fraction $\frac{9}{10}$, what is the denominator? ____
5. Which is the proper fraction? $\frac{2}{2}$, $\frac{3}{2}$, $\frac{1}{2}$
6. Which is the improper fraction? $\frac{2}{2}$, $\frac{3}{2}$, $\frac{1}{2}$
7. Which is the mixed number? $\frac{2}{2}$, $\frac{3}{2}$, $\frac{1}{2}$
8. Which is the proper fraction? $\frac{7}{6}$, $\frac{3}{6}$, $\frac{5}{6}$
9. Which is the improper fraction? $\frac{7}{6}$, $\frac{3}{6}$, $\frac{5}{6}$
10. Which is the mixed number? $\frac{7}{6}$, $\frac{3}{6}$, $\frac{5}{6}$

Riddle Answer

He grew a ___ ___ ___ ___ ___ ___ ___ ___ ___ ___.

What is a baby elephant after she is eight weeks old?

Rewrite the ratios below as fractions. Write your answers in simplest terms. Match each answer to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1. \(1:4\) = _____
2. \(11:16\) = _____
3. \(8:20\) = _____
4. \(15:25\) = _____
5. \(6:7\) = _____
6. \(14:33\) = _____
7. \(26:39\) = _____
8. \(2:23\) = _____
9. \(32:40\) = _____
10. \(40:55\) = _____

Riddle 40

What did the ghost eat for lunch?

What To Do

Solve the problems below. Write your answers in simplest terms. Match each answer to a letter in the Key. Then write the letter in the space above its problem number to find the answer to the riddle.

1. There are 10 apples. Six of the apples are green. What fraction of the apples are green?

2. There are 20 pens. Thirteen of the pens are black. Seven of the pens are blue. What fraction of the pens are blue?

3. There are 12 pieces of fruit in a basket. There are 3 bananas, 5 apples, and 4 oranges. What fraction of the fruits are bananas?

4. There are 9 crayons. Four of the crayons are blue. Two of the crayons are yellow. Three of the crayons are red. What fraction of the crayons are not blue?

5. There are 11 cups. Six of the cups contain milk. One of the cups contains soda. Four of the cups contain water. What fraction of the cups contain milk and water?

6. There are 15 T-shirts. Twelve of the shirts are brown. What fraction of the shirts are brown?

7. There are 50 pairs of pants. One-half of the pants are black. One-fifth of the pants are tan. How many pairs of pants are not black or tan?

8. There are 36 pairs of shoes. One-third of the pairs of shoes are green. One-half of the pairs of shoes are red. How many pairs of shoes are not red or green?

9. There are 40 balls. One-fourth are footballs. One-tenth are soccer balls. One-half are basketballs. How many are basketballs and soccer balls?

10. There are 17 pictures. Eight of the pictures are of Jim. Four of the pictures are of Marla. What fraction of the pictures are of Marla?
